Abstract

Contents

1	Example section	1
1.1	Example subsection	1

1 Example section

This is an example section. For instance, the optimal strategy in Ref. [Rub24] can be constructed from the solution to the Lyapunov equation

$$S_y \rho_{y,0} + \rho_{y,0} S_y = 2\rho_{y,1}. \quad (1)$$

Equation (1) can be referenced from the text.

1.1 Example subsection

Further notes can be organised into subsections as needed.
